300 to 600 BEAUTIFUL ROSES for \$1.00

Polyantha Roses . . .

These POLYANTHA ROSES (Baby Ramblers) will have 100 to 200 blossoms open on each plant at a time. Three plants (the number we send you for only \$1.00) will have 300 to 600 blossoms open at a time. And that is not all. These are ever-bloomers and if you keep the blossoms clipped off before the petals fall, they will continue to bloom for you all summer. Easy to grow. Thrive in any soil. Fine for borders or groups.

Kellogg's DAZZLER Carnation

NOW, A Hardy Everblooming Carnation

Three years ago a plant breeder in Ohio discovered a particularly beautiful and vigorous Carnation growing in a lady's yard. Upon inquiring he was amazed to find that—although the plant was growing outside—it was several years old. He immediately secured scions from the plant and began experimenting, grafting these scions on Gypsophila Paniculata roots. The experiment has created a variety of unusual vitality, beauty of bloom, and productiveness. Here is the first hardy everblooming Carnation. Here is the first everblooming red perennial. Here is an amazing new addition to the great kingdom of flowers. It is the only every

blooming hardy Carnation. Flower lovers will welcome it immediately. Blooms first year.

Kellogg's Dazzler Carnations are carried on long, stiff stems 15 to 20 inches tall and make a wonderful bedding or border plant. The stems are strong and upright. The only plant that can come anywhere near rivaling Kellogg's Dazzler Carnation in beauty of display is Azaleamum. Kellogg's Dazzler will often make a plant nearly as big as Azaleamum and, on account of the fiery red color of the blossoms, just as showy. It starts blooming six to eight weeks earlier than Azaleamum. It is a wonderful companion plant to Azaleamum. Grows well, shade or sun.

for only \$2.00

Postpaid

See next page for further pictures and description of this amazing new Everblooming Carnation.

Kellogg SATISFIES

From F.E. Beatty, Three Rivers, Michigan to You

When you are buying your nursery stock or anything else, it's your business to save money when you can actually save it, but you are not saving money when you buy too cheap to get something good. It's our business to save you every cent we can on your nursery stock. It's also our business to send you the very best that can be grown. Another part of our business is to see that you are perfectly satisfied, and Kellogg always satisfies.

I don't care how many plants you get for a dollar, if they are not good strong plants and if the plants do not reach you in good growing condition, you have not received your full money's worth and you are not going to be satisfied. It is not the number of plants you get, but the quality of the plants that satisfies.

Wouldn't you honestly rather have fewer choice plants for a dollar and be perfectly satisfied than to get a few more poor quality plants for a dollar and be bitterly disappointed? There's a mighty big difference between perfect satisfaction and bitter disappointment.

I have actually seen catalogs offering eight rose plants for \$1.00 without mentioning the fact that they were very small, pot-grown plants with only about three months growth. Kellogg roses are budded roses and have had two full years growth right out in the open field. They are hardy, sure to grow, and will bloom heavily the first year you plant them. One Kellogg two-year, field-grown budded rose plant is actually worth more than the entire eight potted plants.

What I have told you about rose plants is also true about shrubbery. We are not offering you small "lining out" stock taken from the seed bed. Kellogg shrubbery is all two and three year, hardy, field-grown plants, heavily rooted and well branched, the only kind that will give you quick growth and complete satisfaction.

In the case of gladiolus bulbs and lily bulbs, these come in several sizes ranging from small bulblets to full blooming size bulbs. We send you only the full blooming size, the kind we can guarantee to bloom for you the first year.

And when it comes to berry plants, you can buy berry plants at most any price, but the plants that will produce the biggest crop of berries are the cheapest plants you can buy. Kellogg's Thorobred Pedigree plants are bred for heavy bearing. One of these plants is easily worth a full dozen of poor fruiting plants. There is as much difference in the fruiting quality of berry plants as there is in the laying quality of hens.

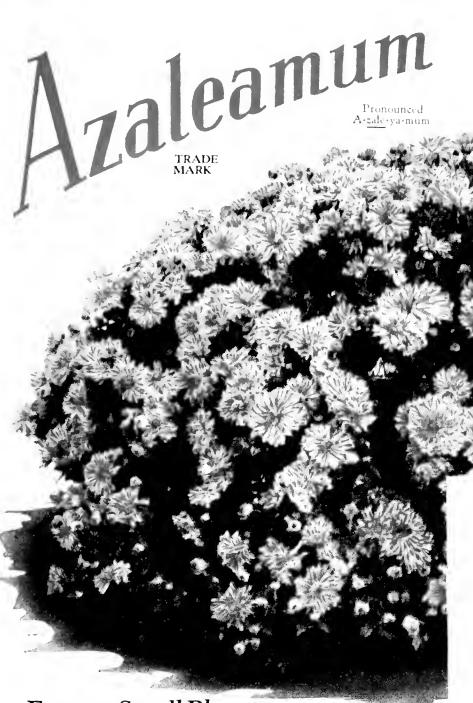

Now when you buy your nursery stock and bulbs, if you will be governed by the facts I have given you in this letter instead of being influenced by price alone, you are sure of perfect satisfaction, and remember "Kellogg always Satisfies". Come and see us.

Price Notice In fairness to our many customers, we decided not to raise our prices this year as we had fully intended. Order now because increased cost of labor and material will compel us to increase our prices after this year. ALL PRICES IN THIS BOOK EXPIRE JUNE 1,

Sincerely yours.

The Finest and Most Unique Novelty Ever Introduced

Note: We are Protected by U. S. Copyright On the Sale of Azaleamum.

a time the first year, fifteen hundred or more the second year. Plants attain size of bushel basket or larger. A blaze of gorgeous color from early September until early December. Blooms for years without protection. Perfectly hardy. The most magnificent perennial flower ever produced. The sensation of the autumn flower garden. The glory of the rock garden Six hundred or more blossoms open at garden. The glory of the rock garden.

One customer says, "You should see my 2 Azaleamums. One is 32 inches across (diameter), 18 inches high, and has another 3 weeks to grow. Full of little buds. I don't know how large this 1 plant would have been if it wasn't for a very dry, hot spell."—E. J. Prucha.

From a Small Plant to These 600 Magnificent Flowers in One Season

Order Azaleamum this spring and this fall you will have a perfect blaze of beautiful color just like the picture above. Azaleamum will be the sensation of your flower garden or rock garden. Truly a feast for the eyes of the flower lover. No other flower compares with Azaleamum in quantity and beauty of flowers. Brings exclamations of wonder and delight from everyone.

Azaleamum is a chrysanthemum type resembling an Azalea. More beautiful than Azalea and more desirable because of its long blooming season and perfect hardiness. More than 600 flowers have been counted on a single plant at one time the first year, second year 1500 or more. Be sure to order some of these amazing plants. They will delight you beyond measure.

Beauty in Every Blossom

Here is a typical Azaleamum blossom. Note the beautiful pink shade, lovely yellow center, and beautiful shape. But this picture does not do complete justice to Azaleamum. Every single blossom of Azaleamum is a marvel of beauty that cannot be fully pictured. Imagine a whole bushel size plant covered with such beautiful flowers. It's a whole beautiful flower garden in itself.

All prices prepaid.

SILVER MAPLE (Acer dasycarpum). Rapid growing tree attaining 50 feet height. Silver green leaves. Strong, well shaped tops. Size 6 to 8 fect. 60c each or \$1.00 per pair, not prepaid.

WEEPING WILLOW (Salix blanda). Adds a picturesque touch unobtainable in other trees. Grows 30 to 40 feet high. Size 5 to 6 feet. 60c each or \$1.00 per pair, not pre-

Pussy Willow.

6 Hollyhock Strain DELPHINIUMS.

Hollyhock Strain

Super-excellence in Delphiniums—ruggedness, hardiness, immensity of bloom—variety of colors. A special strain, the result of careful breeding to bring out to the greatest possible degree the finest characteristics and beauty of Delphiniums.

Hardy Perennial Easy to Grow The Garden's Finest Background Flower

This outstanding group of genuine Hollyhock Strain English Hybrids are grown with the sole idea of giving Kellogg customers unsurpassed Delphinium beauty.

These are not just ordinary Larkspurs. They are tall and rugged growers. The foliage is broad and handsome. The flower spikes are extremely massive. These unfailing characteristics alone put Hollyhock Strain English Hybrids in a class by themselves. Add to this the magnificent grandeur of their varied colors and you have a word picture of these most impressive beauties. But words cannot describe the colors to be found in these elegant creations—all shades of blue, old rose, pink, lavender, and purple. Doubles and semi-doubles in profusion.

This is a value not to be overlooked. Order now. Preference given to early orders.

The Six Field-Grown Plants Postpaid For Only \$1.00.

Kellogg's Garden of Roses

Mrs. Henry Morse.

O Everblooming ROSES, only \$2.95

Including "AUTUMN"—Brand New!

Without doubt the greatest Rose bargain ever offered, combining newness, hardiness, and gaiety of color beyond the imagination. Only the most select varieties. Only two-year, field-grown plants, properly packed and labeled—properly pruned for planting. We guarantee to please in every respect.

Beautiful as are their pictures shown here, they do but slight justice to the living flowers you will enjoy by ordering one or more of Kellogg's "Garden of Roses." Remember, you get in this collection only the best of the better Roses. See names of varieties you receive under illustrations, and note that you receive one "Autumn." This Rose alone is valued at 75c.

Joanna Hill.

Autumn—NEW!

Note the gorgeous beauty of this amazing new Rose. Note its brilliance and rare coloring. This is a fine way to secure Autumn—one is included in Kellogg's Garden of Roses.

Henry Nevard.

Mrs. E. P. Thom.

Double Tiger Lily.

Tiger Lily.

WHITE JAPANESE EASTER LILY (Longiflorum giganteum). (Above). This fragrant Lily can be forced to bloom at Eastertime. It is also unparalleled as an outdoor sort. Immense trumpet-like blooms of pure white. Blooms June and July. 35c each; 3 for 90c, postpaid.

DOUBLE TIGER | SPECIOSUM RU-LILY (Tigrinum Fl. Pl.). (Left). Extremely popular double flowering type. Color is of the same deep orange with black spots. Flowers are more erect than those of its parent. 35c each; 3 for 90c, postpaid.

UMBELLATUM GRANDIFLOR-UM. A Lily similar in form to the Double Tiger Lily (pictured at left). Its color is, however, distinctly different, being of deep orange suffused with red. Tall grower. Blooms in June. 35c each; 3 for 90c, postpaid.

TIGER LILY (Tigrinum Splendens). (Left). Flowers of deep orange spotted with black. Free blooming, tall growing. Highly prized for its contrasting color. 30c each; 4 for 90c, postpaid.

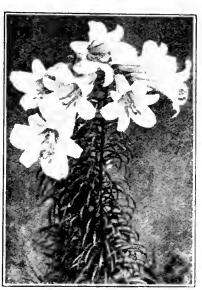

BRUM). (Right). Flowers of beautiful rosy white, spotted crimson. Blooms in August. Plant is hardy and free blooming. Flowers are especially attractive in bouquets. 40c each; 3 for 90c, postpaid.

SPECIOSUM AL-BUM. Same form and size as Speciosum Rubrum. The flowers, however, are pure white with a green band traversing each petal. Very striking in appearance. 40c each; 3 for 90c, postpaid.

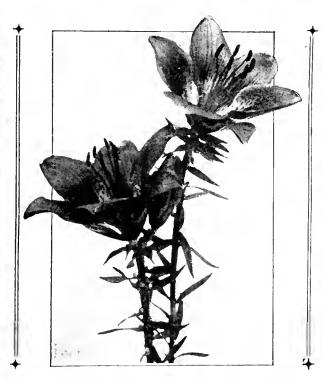

REGAL LILY (Regale). (Right). Perhaps the hardiest and most beautiful Lily known in cultivation. Tall growing flower stalks. Blooms of snowy white with gilded throat and veins of crimson on outside of petals. We have counted as many as 22 mature blooms on 1 flower head. June and July. 12c each; 10 for 90c, postpaid.

Speciosum Rubrum.

Regal Lily.

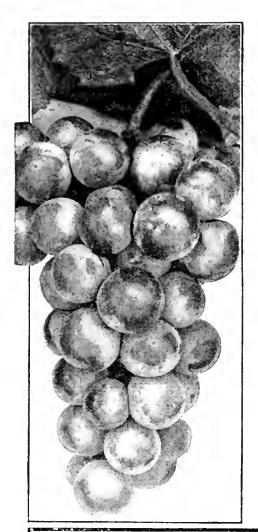

CROCEUM LILY. (Above). A marvelous variety. Very showy. Grows 3 feet or more in height with loads of large orange-yellow blooms tinged with red. Spots of purplish black add charm to this most ravishing beauty. 55c each; 2 for 90c, post-

Lilium Auratum.

GOLD-BANDED LILY (Auratum). (Above). Gorgeous beyond belief. Broad petals of white with maroon markings. Each petal is traversed by a rich gold hand producing a most unusual color effect. Blooms July and August. 40c each; 3 for 90c, postpaid.

Kellogg's Grapes

The Best That Grow — All Two-Year Plants

If you have room to plant only one fruit, plant Grapes. Grapes are healthful and delicious and require very little space. Utilize that back fence or trellis to grow this luscious fruit for home use. Plant them in quantities on that unused piece of ground. They are always in big demand and bring good prices. Do not go without Grapes any longer. Order Kellogg's Grape plants now.

CACO. (Wine red). Extra early. Most delicious flavor, Rich in sugar, Very sweet. Large Grapes on long, compact bunches. One of the best new Grapes. 45c each; 3 for \$1.00; 10 for \$2.50, postpaid.

CONCORD. (Black). Excellent quality. Hardy; heavy yielder of large bunches of juicy, sweet and tender grapes. 20c each; 3 for 45c; 10 for \$1.00.

NIAGARA. (White). Most popular white Grape. Bunches very large and compact. Hardy grower; succeeds everywhere Grapes are grown. Very sweet and delicious. 20c each; 3 for 45c; 10 for \$1.00.

LUCILE. (Red). Prolific bearer of large bunches of high quality grapes. Hardy and dependable. Should be in every planting. 25c each; 3 for 60c; 10 for \$1.35.

MOORE'S EARLY. (Black). One of the earliest black Grapes. Peculiar sweet flavor; hardy, good bearer. 23c each; 3 for 55c; 10 for \$1.35, postpaid.

DELAWARE. (Red). Hardy grower, heavy producer of beautiful bunches of the most

deliciously flavored grapes you ever tasted. 25c each; 3 for 60c; 10 for \$1.50.

DIAMOND. (White). Good, hardy grower; heavy producer. Excellent quality. Large size. Always pleases. 23c each; 3 for 55c; 10 for \$1.35.

BRIGHTON. (Red). Dependable grower and producer. Large bunches. Excellent flavor: Ripens early. 25c each; 3 for 60c; 10 for \$1.50.

WORDEN. (Black). Very hardy, healthy and productive. Fruits early. Surpassed by no other variety. Very popular family Grape. 20c each; 3 for 55c; 10 for \$1.35.

FREDONIA. (New). (Black). Earliest black Grape, Vine vigorous, hardy and productive. Ripens two weeks earlier than Worden. Superior to its parents, Champion and Lucile. Clusters medium in size, cylindrical, compact; berries large, round and persistent; skin thick and medium tough; flesh juicy, solid, tender. 50c each; 3 for \$1.25; 10 for \$2.95. 10 for \$2.95.

Kellogg's Thorobred Strawberry Plants

For over a quarter of a century, Kellogg's Thorobred Strawberry plants have been the fruiting champions. When you speak of Strawberries you think of Kellogg. Here are letters that tell a story of fruitfulness and satisfaction.

A Kellogg Plant Bears Fruit and This Picture Shows How.

"We gathered from the 4000 Kellogg plants, 5389 quarts of extra choice berries. That is wonderful for 1/2 acre, don't you think? We never had to sort a single box of berries and the fruit was the finest choice fruit ever seen here." —Geo. N. Light, Iowa.

"We picked 1108 quart boxes, piled up, off of our 1000 plants we got of you."—Mrs. Minnie Hershberger, Pa.

This Year's Money Makers

This is the year to start in the Strawberry business. Prices are soaring. People are buying. Last year there was a shortage of Strawberries and prices began to go back to normal. We confidently predict that people who plant this year are going to make just such profits as reported in this letter.

"I want to tell you about my Strawberry crop. I got 10,000 plants of you and this spring we picked 1,100 crates of berries. The crates had 24 boxes in them. Sold \$2,364.91; net gain, \$1,623.13."—Mrs. Hettie O. Forsythe, Oregon.

- 5 Extra Good Standard Varieties -

All the five varieties below are male or bi-sexual and will fruit without mating.

Kellogg's Early Bird (Male): A splendid wery attractive foliage. Good yielder of extra large, beautifully shaped, bright, snappy red berries. A real prize for your garden and a very profitable market berry. Early Bird insures your early Strawberry shortcake.

Senator Dunlap (Male): Strong, hardy yielder of big, solid, dark red berries. Has yielded better than 13,000 quarts per acre. Excellent for canning; delicious in every way. Fruits big crops in all soils and climates. A grand Strawberry for gardens and market. Fruits midseason.

Dr. Burrill (Male): A most splendid midseason Strawberry. Hardy, dependable grower; extra heavy yielder of big, topshape, dark, solid red berries. Wonderful for gardens and best of all for canning. A top-notcher and real moneymaker.

Gibson (Male): One of the hardiest and most productive midseason Strawberries ever grown. Beautiful foliage, large plants literally covered with big, bright, cherry red berries. Easily grown. A leading market berry and splendid for home gardens. A berry you can depend upon.

Blakemore (Male): One of the early Strawberries that will put big profits into growers' pockets. A big, hardy, strong grower; produces big crops of large, round, sparkling, solid berries. Solid red from surface to center. One of the most beautiful Strawberries ever grown. A real prize for the home garden and a big moneymaker for the market grower.

You may take your choice of the five varieties described above and at the left, at the following extra low prices. All are priced the same.

New Anoka Apple

Set in Spring 1934

The year of planting is the only year that the Anoka does not bear fruit.

You receive some apples one year after plant-

July . 935

And now — only two years after planting— you receive a big full-sized crop.

July 1936

Bears quickly—One year after planting—The earliest and heaviest bearing apple in the world—8 crops of apples at only 10 years old—Hardy in all climates—Highest quality, delicious fruit.

Anoka's first growing season—the year you plant—is the only year that you will not receive fruit. One year after planting you will receive enough Apples for eating purposes and two years after planting you will receive your first fine, large, full-sized crop. Where else can you find an Apple that will duplicate this performance?

Anoka bears fruit in July and August. It is the earliest fruiting Apple known. Now, you can have delicious apple pie, apple dumplings and cool, sweet, eating apples right in midsummer.

Anoka is an exceedingly prolific fruiter. Professor N. E. Hansen, head of the Department of Horticulture, State College, S. Dakota, says:

"Anoka is a heavy annual bearer under ordinary circumstances. It bears after one year in the nursery. John Robertson, orchardist of Hot Springs, South Dakota, President of the South Dakota State Horticultural So-

ANOKA Fruiting Heavily Two Years After Planting.

ciety, sent me a photograph of his Anoka Apple seven feet high bearing two bushels of Apples."

N. E. Hansen.

Anoka is perfectly hardy and will survive the winter in all climates. It was originated in the Dakotas where winter winds are icy cold and where the thermometer's mercury shivers close into the bulb as if trying to escape the frigid blasts.

ANOKA APPLE: Note the fine, beautiful shape, the glossy, beautiful skin. Doesn't this Apple simply invite you to eat it? Anoka is one of the finest treats that Nature ever produced.

Eight big crops of Apples at only ten years old is the wonderful record that Anoka has made. Anoka is attracting world-wide attention because of its heavy, early, and quick fruiting and because of its high quality fruit. The fruit is better than such varieties as Duchess. It is a most welcome early summer eating Apple. In flavor it is one of the very best. The Apples are of good size, well formed and beautifully colored, worthy of a place in your yard, garden or orchard. Beautiful upright grower as shown in picture. A few of Kellogg's Anoka Apple

trees will solve your Apple problems. Order at least one and be a year ahead of your friends. There's plenty of room in your back yard.

ANOKA PRICES

All trees three to four feet and up; all well branched; heavily rooted and healthy; guaranteed to reach you in good growing condition—guaranteed true-to-name.

1 tree\$0.60 postpaid 3 trees 1.50 postpaid

Order Early! Supply Limited!

Dark Red Delicious.

Dark Red Delicious

Best for market—ideal for home orchards. Newest and greatest Delicious. Many shades deeper in collicious. Many shades deeper in color, yet with the perfect shape and juicy goodness of its parent. Costs no more to raise than just a red apple, yet the buyer will always pay a premium for color. Plant Dark Red Delicious and reap the extra profit. Sturdy, 4 to 6 ft. trees, 7/16" to 9/16" caliper, 60c each; 3 for \$1.50, postpaid. Ten trees for \$3.95, not prepaid.

Dwarf Apples and Pears

Plant dwarf trees in limited space 8 to 10 feet apart. You get the same size fruit as from larger trees requiring 30 to 40 fect distance. Bear very young. Do not attain size of standard trees but bear the same. We have the following varieties at prices below tics at prices below.

APPLES Delicious McIntosh Yellow Transparent

22/2 . .

PEARS Bartlett Clapp's Favorite **Duchess**

Each, 70c; 2 for \$1.25; 6 for \$3.35, postpaid.

CLAPP'S FAVORITE. Very large, handsome Pear. Yellow with red cheek. The best of the large early Pears. Fair canner if picked before too ripe. August.

SECKEL. Small fruit, light russet with red cheek. Very sweet and fine grained. Fine for pickling. October.

LINCOLN. Succeeds where others fail. You will at once recognize Lincoln superiority. Has all the fine qualities of a good Pear. Fruit large, clear yellow, blushed red. Good canner, fine keeper. Tree fast growing, extremely hardy. Bears October. Do not fail to include Lincoln when ordering Kellogg Pears.

10 for \$3.95, not prepaid.

Northern Grown Apples

Plant Kellogg's Northern Grown fruit trees and be assured of success. Every tree true to name and up to grade. The Best That Can Be Grown.

DELICIOUS. Fruit large, brilliant red. Flesh fine and crisp. Beautiful shape and fine aromatic flavor. Keeps and ships well. Very aptly named Delicious. November.

McINTOSH RED. Large crimson fruit, slightly acid. Extra good keeper and shipper. October.

CORTLAND. An improved Mc-Intosh but two weeks later, which insures a late keeping date. Extra hardy, comparatively early bearing. November.

YELLOW TRANSPARENT. Earliest, standard eating Apple. Fruit large yellow. Flesh white and tender. Makes fine sauce or pies. July.

RHODE ISLAND GREENING. Large, greenish yellow fruit. Easily the best Greening. November. NORTHERN SPY. Large, redstriped, slightly acid fruit. In great demand. December.

BALDWIN. Large, bright red with faint specks. Juicy and acid. Fine for desserts. December.

JONATHAN. Large, red fruit, prolific early bearer. November.

TURLEY. An improved Stayman's Winesap. Same satisfactory size but deeper color. Excellent pro-

ducer, good seller. December. SWEET BOUGH. Large, pale yellow, summer Apple. Flesh white, juicy and honey sweet. The best summer sweet. August.

WINESAP. Fruit large, crisp and pleasantly aromatic. A good yield-

er, ready seller. Nov. Dec.
WHITNEY CRAB. A good general purpose Crab Apple. Large fruit. Yellow, striped carmine-red. August.

J. H. Hale.

ELBERTA. Large, oval-shaped, yellow freestone. Red cheek. Prolific and hardy. The leading market variety. Middle September.

EARLY ELBERTA. Ripens a week before Elberta, which has won it much favor. Otherwise much the same as Elberta.

J. H. HALE. Very popular variety. Flesh yellow and sweet. A good canner and shipper. Without doubt the largest commercial freestone Peach. Early September.

EARLY CRAWFORD. Magnificent, large, yellow freestone Peach. Fine for eating or table use. A fair canner. Early September.

LATE CRAWFORD. Large, handsome Peach, similar to Early Crawford except that it bears later and is more prolific. Freestone. September.

Everyone knows how delicious the Peach is. More should know how profitable the crop is to the grower. A small amount invested in Peach trees will give you all the juicy fruit you want for your home use and plenty to sell. Little care is required in the cultivation of this popular fruit and it can be grown upon almost any kind of soil. Plant 15 to 18 feet apart.

SOUTH HAVEN. A newer sort with exceptionally fine flavor. Flesh yellow and sweet. Its showy exterior combined with its earliness make it a real money maker. Freestone. September 1st.

WILMA. Fruit large like its parent, Elberta, though more showy. Ripens later than Elberta, or about September 25th. Freestone.

CHAMPION. The very best early, white-fleshed freestone. Rich and juicy. Highly colored cheek. A favorite eating Peach. August.

SHIPPERS LATE RED. A new Peach, round in shape and beautifully colored red. Flesh yellow and sweet. Tree hardy and annual bearer. Fruit clings to tree tenaciously, which eliminates droppage. You will not be disappointed with this marvelous new freestone Peach. September-October.

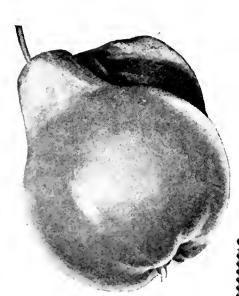

PRICES—PEACH TREES: Size 7/16" to 9/16", 4 to 5 feet.

3	trees.	vour	choice	\$	1.10 postpaid
---	--------	------	--------	----	---------------

Moorpark Apricot

A remarkable fruit, intermediate between the peach and the plum. Fruit is delicious and easy to grow. To prevent buds from freezing, give the Apricot a northern exposure. Otherwise give the same attention as the plum.

Kellogg's Apricot trees are budded on plum, insuring strong growth and longevity. All 2-year, 7/16" to 9/16" size, 60c each; 2 for \$1.00; 6 for \$2.75, postpaid.

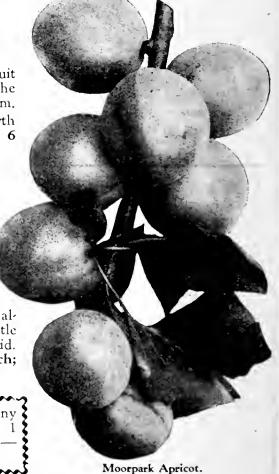

Orange Quince.

Orange Quince

You do not know what real Quinces are like unless you have seen and tasted Orange. Large and bright yellow. They just naturally can't be beaten for jellies, preserves and the always welcome "quince honey." You can always a few of those little ways find room for a few of these little trees. You will be more than repaid. Size 2-year, 7/16" to 9/16", 70c each; 2 for \$1.25; 6 for \$3.35, postpaid.

BARGAIN! Your choice, any Peach tree, plus 1 Apricot and 1 Quince-3 trees in all-\$1.82 value—only \$1.59, postpaid.

Montmorency Cherries.

Sour Cherries

EARLY RICHMOND. The "English Pie Cherry." Fruit medium sized, red and juicy. Tree a strong grower and bears young. June.

LARGE MONTMORENCY. The greatest Cherry ever introduced. Planted exclusively by large orchardists. The large red fruit is in great demand for canning and table use in preference to all others. A sure bearer under any ordinary conditions. Late June.

ENGLISH MORELLO. Dark red, firm fruit. Bears after other sour Cherries are gone. Should be in every orchard. August.

Relloggs Northern Cherries

Cherries should be planted by all. They bear quickly and abundantly. They are hardy and the fruit is always in demand. Kellogg offers only select strains of proven varieties. Plant on well drained soil about 18 feet apart.

Sweet Cherries

BLACK TARTARIAN. Large, rich black fruit. Very popular and a quick money maker. June.

ROYAL ANN. Pale yellow fruit with red cheek. Flesh firm. Tree productive. July.

GOVERNOR WOOD. Rugged growing tree, bearing large, nearly round fruit of rich yellow, suffused with red. June.

SCHMIDT. Immense, deep black fruit with dark flesh. Extra fine flavor. Tree stocky grower. July.

WINDSOR. A valuable late variety, bearing large, dark red fruit. Tree prolific grower. An extra remunerative market variety. Late

BING. Very large black fruit. Flesh firm and richly flavored. One of the most profitable. July.

Plums

Plums are among the most desirable and profitable fruits. Plant twenty feet apart.

ABUNDANCE (Japanese). Sturdy, upright growing tree. Fruit large, pinkish red. Bears young. Ripens August.

BURBANK (Japanese): Tree grows rather flat which makes picking easy. Very hardy and bears at an early age. Fruit large, red. Late August.

GERMAN PRUNE. Extra large, dark pur-ple canning Plum. Flesh is sweet and delicious. September.

FELLENBURG (Italian). Good sized pur-ple Plum. A good canner and an ideal fruit for drying. September.

LOMBARD. Medium sized. Fruit red. Very productive. This is the leading market variety and is grown extensively wher-ever Plums are known. Late August.

GREEN GAGE (Reine Claude de Bavay). This large green Plum is always a real fa-vorite, either as a canning or table fruit. Its high sugar content makes it one of the most economical sorts. September.

MONARCH. Extra heavy bearer of very large, dark purple fruit; oval in form and perfect freestone. October.

3 New Hybrid Plums

ESPECIALLY SELECTED FOR QUALITY, HARDINESS and PROLIFIC BEARING QUALITIES

No other Plums can equal these famous Minnesota Hybrids for general purposes. They often bear in the nursery row and will be bearing huge erops of luscious fruit for you before you could hope for fruit from ordinary kinds. Ripen August.

WANETA. Tree rugged grower. Fruit large, dark purple.

UNDERWOOD. Large, juiey rec Small pit. Early bearer. Prolific. red fruit.

KAHINTA. Large, red freestone. Flesh yellow and sweet.

Burbank Plums.

Fiebing Plum — The Newest Prize Winner

Fiebing Plum is the answer to "The Perfect Plum" requirements laid down many years ago. The cash prize for this new wonder plum was awarded to Mr. Chas. Haralson of Excelsior, Minnesota. Kellogg wants everyone to benefit by this great man's discovery and offers Fiebing to our customers that they too may appreciate its sterling worth. Fiebing is a large, attractive plum. Firm flesh, fine flavor. It bears young and ripens early.

Be the first in your locality to profit from this New Prize Winner. Price, 4 ft. trees, 75c each or 3 for \$2.00, postpaid.

HOW to ORDER

ORDER EARLY. Stock will be reserved and shipped at planting time.

PAYMENT in full should accompany all orders of \$5.00 or less. With larger orders you may send one-third with order, balance when you want shipment. No orders sent C. O. D.

SEND MONEY by postal, express or bank money order, or registered letter. Unregistered currency sent at your risk. Add five cents for exchange on personal checks.

SHIPMENT of most orders, parcel post unless large. Large orders usually go by express. All stock sent prepaid excepting where otherwise noted in descriptions.

SHIPPING SEASON. All stock shipped at proper planting time. Early planting is best. Order early and let us ship early.

PLANTING INSTRUCTIONS sent free with each order.

CORRESPONDENCE. Always sign your name the same. Do not ask questions on order blank—use separate sheet.

ALL PRICES in this book expire June 30, 1934.

GUARANTEE. Plants and bulbs must arrive in good growing condition or order refilled free. We also guarantee everything we sell to be strictly true-to-name and just as represented. Results, however, depend on careful care, proper planting, and weather—things we cannot control—hence, we do not guarantee results. It is mutually agreed that in any event we are not liable for more than the purchase price of stock.

SENSATION

The new EVER-BLOOMING Carnation, DAZZLER, is creating a sensation wherever seen. Blooms of fiery red from July 1st to November 1st. Forty to fifty flowers open at a time. Hardy. The newest flower wonder. See pages 3 and 3-A.

ALL HARDY VARIETIES

HARDY WATER LILIES

(Order separately at prices below, or order collections above and at left).

Anyone can have Water Lilies—for they require only a sunny place and an old sunken tub or two. We send free instructions for making several types of pools on request or with your order-sunken tubs, concrete formal, concrete informal, etc. Here are the best Water Lily varieties:

CHROMATELLA. (Yellow-shown above). Rich and beautiful. Leaves beautifully marked. By far the best of yellow varieties. Price, \$1.50 each; 3 for \$3.95, postpaid.

HELEN FOWLER. (Pink—shown above). Pink is one of the most delightful colors for Water Lilies. The flowers of Helen Fowler are very fragrant. Price, \$1.50 each; 3 for \$3.95, postpaid.

GLORIOSA. (Red—shown above). The undisputed champion of Water Lilies, regardless of color. Beautiful deep red in color, mammoth blooms 6 inches across. You simply must have Gloriosa. Price, \$3.00 each; 2 for \$5.75; 3 for \$8.50, postpaid.

GLADSTONE. (White-shown above). As chaste and beautiful as heavenly raiment. Wonderful large white flowers, 6 inches across. A strong grower and free bloomer. Price, \$2.00 each; 3 for \$5.75,

AQUATIC PLANTS

The well planned pool should have at least one of these beautiful plants in addition to water lilies.

GIANT ARROWHEAD (Sagittaria), (See picture No. 3). Not only a plant of artistic foliage, but a fine flowering plant. Flowers are beautiful white with matoon base, borne in immense size. Thrive in 2 to 12 inches of water. A fine centerpiece for your pool—fine in the corners.

CATTAIL. (See picture No. 1). Too well shown by the picture to need description, lends a fine bit of artistry to your pool.

JAPANESE UMBRELLA PALM. (See picture No. 2). Grows fine in moist soil of the bank or can be potted and the pot partly submerged. Very artistic.

PICKEREL PLANT. Beautiful heart-shaped leaves with spikes of very pretty purple flowers. Plant in shallow water. They grow about two feet high.

SWEET FLAG. Shallow water plant. Saber-like leaves, broadly striped, green and ivory.

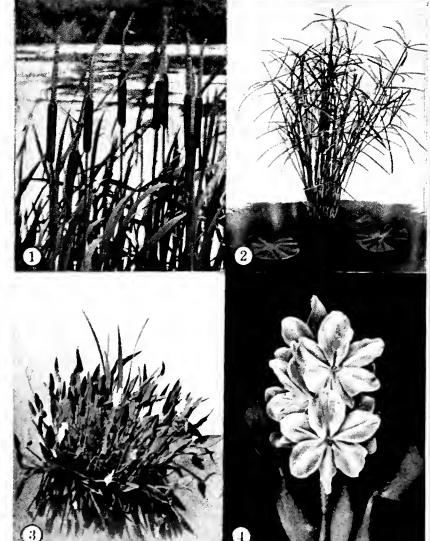

PRIMROSE CREEPER. A rapid growing, partially submerged plant with large, yellow primrose flowers. Fine for moist ground or shallow water.

WATER CALLA. Large, trumpet-shaped, snow-white flowers with golden yellow spadix. Luxuriant foliage.

WATER HYACINTH. (See picture No. 4). A beautiful floating plant. Spikes of orchid flowers as shown.

WATER IRIS (Blue or Yellow). Plant in shallow water or damp soil at pool's mar gin. Very easy to grow. Most beautiful. State colors wanted.

Prices of above plants at right of picture.

New Everblooming; Hardy

See pages 3 and 3A for amazing new everblooming carnation, Kellogg's Dazzler. Chicago Century of Progress Sensation!

CUPTRIGHT BY JACKSON & PERKINS CO

BLAZE **Everblooming** Climber

U.S. Plant Patent No. 10.

Blaze is taking the country by storm. Don't fail to have it in your garden. It's a marvelous, new hardy Climbing Rose which inherits the blazing color of Paul's Scarlet Climber together with the ever-blooming habit, thus combining two most attractive features. Perfectly hardy and very vigorous. Seldom out of bloom. On August 15th plants in the test garden were covered with blooms from bottom to top. Can be pruned very low for hedding, medium for shrub use, or trained as a climber. This most magnificent everblooming Climbing Rose-a brand new creation, for only \$2.00 each, postpaid.

R. M. KELLOGG CO. Three Rivers, Mich.

New Rose, Golden Climber

Here is an amazing new Rose -- a departure in Climbing Roses. Note these extremely unusual features:

Hybrid Tea Type: Fully grown Roses average 4 to 8 treh's diameter semi-double with heavy tuits of nankeen-yellow stamens.

Long Lasting does not make a short blast of I loom like most climbers. "The last Rose of summer" may come from Golden Climber.

Long Stems. Flowers most always come solitary on stems often 18 inches or longer.

Extremely Hardy—can withstand sub-zero

Beautiful Foliage that is ornamental even with-cut the blooms. Very vigorous, Suitable for

"Golden Climber won the gold medal in 1933 awarded by the Massachusetts Horticultural Society given only for exceptional and outstanding flowers; also, the American Rose Society medal for the best Rose at their 1933 annual meeting."

Order now and lead the procession. Golden Climber is yours for only \$2.00 each plant, postpaid.
